President Myers stated that Morgan Stanley has a eleven month CD with an interest rate of 1.9% that he will check to see the date of investment. There was no decision made at this time regarding reinvestment.

Executive Director Konsis asked the Board if they wished to dedicate the Herzig Estate dollars toward a specific fund, since there were no stipulations.

After a brief discussion, the Board was in agreement to place the amount into the General Fund.

The grand total of cash and investments as of August 16, 2017, was $1,022,295.00; less bond funds: $528,295.00. This compares to the grand total of $349,825.00, August 2016.

President Myers asked if there were any questions from the Trustees regarding any of the accounts or investments. There were none.

Agenda item number eight, Specific Items of Business to be Transacted.

Item eight a. Presentation by Neubert Communications. Executive Director Konsis introduced Preston Neubert. Preston introduced Duane Law, CEO and gave the Trustees an Executive Summary relative to Kennekuk County Park. Duane and Preston gave a history of how Neubert Communication began, and presented the problem and their proposed solution. The technology used is cellular and allows for a range of a eight mile radius from the main cell tower with the ability to provide broadband to residents living in wooded areas. The broadband will not have data caps, data throttling or be affected by poor weather. A 200’ tower would be installed which will distribute wireless LTE internet to Kennekuk County Park and therefore be offered to its surrounding residents. This tower
will allow the park to resell the internet via a profit sharing program with Neubert Communications. A projected balance sheet was provided with the summary report.

The representatives answered many questions regarding speed, connectivity, and reliability from the Board and audience.

President Myers asked that copies be made of the proposal and be sent to each Trustee so that it may be reviewed in depth.

Preston estimated the upfront cost to be $140,000.00 which would be 50% of the total cost of the tower.

Item eight b. Presentation of Fiscal Year 2016-2017 Audit by Crowder APA’s Ltd.

Executive Director Konsis introduced Karen Crowder. Each Trustee had been given a copy of the V.C.C.D. Annual Financial Report for the fiscal year ended March 31, 2017. Karen explained that the District had an unqualified report, or in other words, the best audit report possible.

Karen explained the attached letters to the Board of Trustees and Management of the V.C.C.D. She presented the complete audit report, highlighting significant reports, statements, and notes.

The Governmental Funds Balance Sheet shows a positive balance. The Statement of Revenues, Expenditures and Changes in Fund Balances for Governmental Funds on page eleven show that ALL funds have a positive balance. Details of all funds are listed here.

Pages three through eight contain management’s discussion and analysis of the District’s financial activities for the fiscal year ended March 31, 2017. This clarifies the financial statements included in the annual report.

Pages eleven through fifteen are fund financial statements regarding expenditures, revenues, assets and liabilities.

Pages sixteen through thirty-four are detail to the notes of the financial statements. Most of these they have seen in the past including lease disclosures.

President Myers commented that the IMRF is almost fully funded, according to the state, which is unusual. His concern is the investment rate of return and the District’s liability according to changes in the discount rate.

Karen allayed his concern with the fact the District runs under a modified cash basis.

Page forty-seven contains the schedule of property tax revenue and distribution.

Karen asked for comments and questions.

President Myers stated that the District had negative fund balances, in particular in the insurance fund, over the past three years and Executive Director Konsis has worked to get these to the positive; are we now overcompensating?
This was referred to Gordon Thoennes, representative from Dimond Brothers Insurance, in the audience.

Gordon was unsure, since renewal figures are not in yet.

Brief discussion ensued.

Karen commented that she prefers to see her commercial clients to have a six month reserve in their funds. The insurance fund may have a reserve, but it is not a six month reserve.

Karen praised Kim Fox for the information she provides for the auditors which saves them time, in turn saving the District money. Kim is a great asset.

The biggest area of risk the District continues to face is segregation of duties, such as handling of cash by employees along with checks and balances. There are procedures in place and those will be carried out by a new employee who will begin next week.

With no more questions, Trustee Arnholt moved to accept the Vermilion County Conservation District Annual Financial Report for the fiscal year ended March 31, 2017. This was followed by a second from Trustee Jaynes.

President Myers requested a roll call vote. The results as follows:
